

# Paint with Pomona

Ghost Ranch 2018 \*Featured Legacy Artist\*

## July 8-14 Expansive Watercolor

Come explore color with big brushes, big paper and rich pigment. Expect a good dose of color theory, design tools and value patterns. Expand beyond traditional watercolor concepts.

## July 22-28 Watercolor It

The Ranch landscape has been sketched, drawn, painted, photographed, sculpted, documented with words, plays, film, hiked, horse-ridden, occupied by coyotes, burros, rattlesnakes and bears. Now, with sketching and watercolor, you can do something entirely new from your sketches. Create your own new image of Ghost Ranch. Expect demonstrations, exercises and field sketching to fill the week!

## August 5-11 Painting Miniatures

Ever carried your watercolor supplies for painting in a 5-inch square portable watercolor field bucket? Ever painted while flying from Istanbul to New York City? This workshop is about mobility: painting on the move, or in confined space, or from the backseat of your vehicle. Working with a 4-inch X 6-inch format is fun, less costly, totally portable and very personal, intimate. Let me share my experience and delight with miniature painting techniques.

## August 19-25 The Wonder of Words and Watercolor

Pomona Hallenbeck & Joan Logghe

Watercolor is the perfect medium for enhancing your journal writing, creating miniature paintings, personal postcards, especially when partnering with poetry. Join a painter and a Santa Fe poet laureate and discover how this delightful medium can be used to create many unique and personal pieces of art and greeting cards.

## September 9-15 Photography & Painting Go Hand in Hand

Do your paintings already depend on photography for the details of a great site or do you use it to record what you see? Do you make shape, texture or size the primary consideration? Choosing a design tool to use on site can greatly enhance how you see and record as the basis for creating beautiful and meaningful watercolors. Be sure your camera is in your field bag.

## September 23-29 Exploring the Churches & Villages of Northern New Mexico

Strenuous, fast-moving, demanding, this watercolor workshop is loaded! Studio sessions provide color mixing, design tools, value and color patterns, techniques and painting time! This workshop is a wonderful opportunity to experience the cultures of northern New Mexico.
